

Hello Aldersly friends and family!

My name is Preet Kaur and I'm excited to introduce myself as one of the newest members of the Aldersly team! Born in Mountain View and having lived in different cities, including Fremont, Union City, Belmont, and San Jose, among others, I am a product of the Bay Area. My love for senior living clicked into place about eight years ago when I first started volunteering in an assisted living community. I spent the next few years completing my undergraduate degree in Public Health from San Jose State, my MBA from Santa Clara University, and getting licensed as a Nursing Home Administrator (NHA).

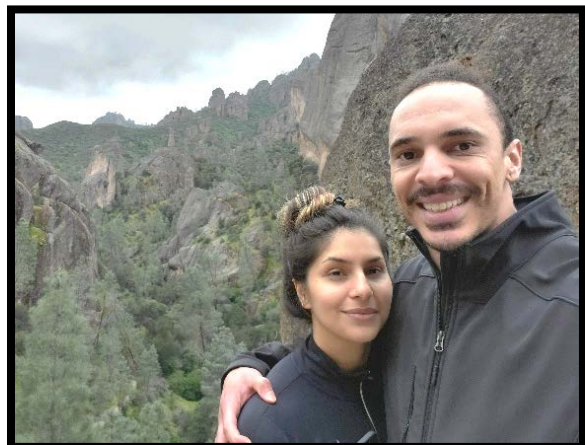

A selfie so everyone knows what I look like without a mask.

I come from another LCS community in Cupertino, The Forum at Rancho San Antonio, where I enjoyed contributing to exciting projects such as an expansion, budgeting, and team building efforts. My favorite part of being a part of a community is getting to know residents, their family members, and being a part of a team that loves what they do. Joining a new community during unprecedented times, most notably COVID-19, brings a lot of unknown and the opportunity to work hard to support the team's effort in keeping Aldersly healthy and safe.

When not at work, I enjoy traveling, hiking, and spending time with family. My favorite travels include Japan and Cuba. I welcome suggestions and stories for future adventures once travel is permitted. Please stop in and say hello, I look forward to getting to know you all better!

Hiking in Olympia with my sister, Aman.

In the Pinnacles with my fiancé, Jeremy.
